*First name:	
*Last name:	
*Your position title:	
*Your E-mail: (preferred by using company e-mail account)	
*Company name:	
Company website:	

Part II. Agreement

Data in our “Technical Data Sheet” were recorded through our in-house measurements; measurements of our PEMWE CCM via other companies/organizations may give different results due to different flow field design, conductivity of the bipolar plates, and material nature of the gas diffusion media of the electrolytic cells. Therefore, these performance data should not be considered for the purposes of standard, product verification, etc.
